## A New Movie Featuring Jérémie Heitz

Now totally recovered from his injury, Jérémie Heitz is preparing a new, large scale project. At the age of 28, the skier from Les Marécottes in Switzerland is setting competition aside to focus more on content creation.

Thanks to a very thorough rehabilitation, Jérémie has completely recovered from his injury and is back to strength following his crash last season during the Freeride World Tour. He is once more skiing at the highest level and working on setting and achieving new goals. After the success of his last film, "La Liste," Jérémie has decided to carry that momentum and to start on another ambitious film project. This movie is expected to be massive, and will take about three years to complete- the freeride world waits in anticipation. Setting aside the Freeride World Tour indefinitely, participation in the event over the years will remain a great memory for the "Valaisan." *"The FWT allowed me to evolve as a skier, and taught me how to escape my comfort zone. It has been an excellent avenue for ramping up to where I am now. That being said, I don't want to focus on results for the moment. I want to go after some more "emotional" goals."*

Still as relevant as ever for his sponsors, Jérémie has already begun filming for his new movie.
